PROFILE

An industrious, determined nuclear security specialist. Track record of analyzing and defending nuclear reactors for their vulnerable components and identifying threats using assigned weapons and security techniques. An excellent observer, with an eye for detail, ensures safe and smooth facility operations.

EMPLOYMENT HISTORY

Senior Security Officer | NPCIL, Mumbai

Jul 2021 - Present

- Conducting investigations regarding suspect incidents of employee theft and vandalism.
- Patrolling the facility and serving as a general security presence and monitoring the crime and rule infractions.
- Patrolling industrial premises for preventing and detecting signs of intrusion and ensuring the security of doors, windows and gates.
- Responding quickly to medical emergencies, bomb threats and fire alarms.
- Analyzing and rectifying all failed security measures to ensure nuclear 24X7 security in the facility.

Junior Security Officer | Bhabha Atomic Radiation Center, Chennai

Apr 2017 - Jun 2021

- Assisted in protecting the nuclear power plant against radiological sabotage.
- Processed employees and visitors into the facility using the T2000 computer, metal detector, explosives detector, and x-ray machines.
- Worked in highly radioactive areas to ensure proper security measures were in place.
- Monitored the CC TV cameras for activity and subsequently wrote complete and accurate reports on any findings.

First Security Officer | TATA Power, Lucknow

Jul 2014 - Mar 2017

- Participated in training and tactical drills and ensured compliance with Nuclear Regulatory Commission (NRC) requirements.
- Performed regular foot patrolling on the entire protected area, vital area installations and gates to ensure the nuclear facility's security.
- Ensured quality surveillance through automatic instruction check instruments and ensured an efficient nuclear security system.
- Administered and responded immediately to any warning generated by alarm for meeting any eventualities.
